Sparkasse Muensterland Ost
Bank Number 400 501 50
Account Number 340 660 01

Hotel accommodation

The main congress hotel is at the site of the convention centre.

This and other hotels can be booked through:
www.marketing.muenster.de

Social programme

Welcome reception at the City Hall.
Poster party at the Halle Münsterland.
Social evening at the lakeside restaurant "Uferlos".

Portrait of the city

Münster is the capital of Westphalia in the North-West of Germany close to the Dutch border. Münster is a 1200 year old city with a nicely preserved medieval core. It became famous in 1648 when the Peace Treaty at the end of the 30 Years War was signed here. Today the city houses the 3rd largest university in Germany with a prominent medical faculty.

Travel information

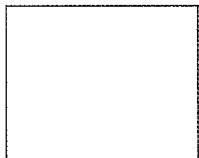

Münster has a local airport, well connected to Frankfurt and Munich for international flights, but also with some direct international connections (Zurich, Copenhagen). Intercity trains between Hamburg and Cologne stop in Münster. There is quick access to motorway A1. The bicycle is the most popular means of transportation inside the city.

Allison Rosen

Basic Mechanisms of Damage to Fertility by Cancer and Its Treatments

Impact of Cancer and its Treatments on Spermatogenesis

Moderator: Anthony Thomas, Jr.

Mechanisms of toxic damage to spermatogenesis *Kim Boekelheide*

Disruption of spermatogenesis by the cancer disease process *Ashok Agarwal*

Cancer Treatment and Basic Mechanisms of Ovarian Function

Moderator: Erkan Buyuk

Molecular mechanisms of follicle growth initiation and survival. *Axel Themmen*

Effect of anticancer agents on oocyte and follicle survival *Jonathan Tilly*

Basic Research on the Potential Genetic Impact of Cancer

Treatment on the Next Generation *Moderator: Gordon B. Mills*

The impact of cancer treatment on human germlines *Andrew Wyrobek*

Impact of maternal exposure to chemotherapy on embryos and offspring *Dror Meirow*

Impact of paternal exposure to chemotherapy on embryos and offspring *Barbara Hales*

Chemoprotection of Fertility: Translational Research *Moderator: Rena V. Sellin*

Hormonal approaches to preservation and restoration of male
fertility after cancer *Gunapala Shetty*

Efforts to use chemoprevention to protect the ovaries *Naoto Ueno*

SATURDAY

Fertility after Cancer Treatment *Moderator: Eva Singletary*

Spermatogenesis after cancer treatment: Damage and Recovery *Stephen Shalet*

Maintenance of ovarian function and risk of premature menopause related to cancer treatment *Charles Sklar*

Modifying Cancer Treatment to Preserve Fertility *Moderator: Ted Trimble*

Protection of the gonads and fetus during radiation therapy for cancer *George Perkins*

Fertility-sparing surgery for malignancies in women *David Gershenson*

Gamete and Embryo Cryopreservation before Cancer Treatment: Current Practice

Moderator: Roger Gosden

Utilization of Sperm banking, new methods of obtaining sperm,

and IVF-ICSI *Larry I. Lipshultz*

Embyo and ovarian tissue cryopreservation before cancer treatment

and use to preserve future fertility *Kutluk Oktay*

LUNCH with speaker:

Legal issues related to parenthood after cancer *Susan L. Crockin*

Ethical Issues in Becoming a Parent after Cancer *John Robertson*

Gamete and Embryo Cryopreservation: Looking to the Future

Moderator: Kutluk Oktay, MD

Cryopreservation and transplantation of spermatogonia for

preservation of male fertility *Stefan Schlatt*

Autograft vs. Xenograft? Issues for Safe Usage in Human Patients *Pasquale Patrizio*

When Will We Have Egg Banks? Cryopreservation and

in vitro maturation of oocytes *Roger Gosden*

Debate:

Are we ready to offer ovarian cryopreservation on a fee-for-practice basis?

Pro: (10 min.) Con: (10 min.) Audience discussion: 10 min.

Bioethics Debate Team: *Anthony Thomas, Jr., Anne Flamm, Pasquale Patrizio,*

SUNDAY

Pregnancy-Related Issues

The Safety of Pregnancy after Cancer Treatment *Moderator: Karin Gwyn*

Impact of cancer treatment on uterine function *Hilary Critchley*

The Safety of Pregnancy after Cancer: Risk of cancer recurrence and of pregnancy complications *Richard Theriault*

Psychosocial Issues for women pregnant at cancer diagnosis or after cancer treatment *Lari Wenzel*

The health of offspring after cancer *Moderator: Archie Bleyer*

Offspring exposed to cancer treatment in utero *Karin Gwyn*

Health of offspring of survivors of pediatric cancer *Les Robison*

Health of offspring of survivors treated in adulthood Sophie Fossa

Special issues for inherited cancer syndrome families *Moderator: Louise Strong*

Reproductive risks for women with BRCA mutations *Steven Narod*

Preimplantation genetic diagnosis for inherited cancer syndromes:

Technical progress *Joe Leigh Simpson*

Debate:

Should Prenatal Identification of inherited cancer syndromes Be Offered?

Pro: (10 min.) Con: (10 min.) Audience discussion: 10 min.

Bioethics Debate Team: Anthony Thomas, Jr., MD, Anne Flamm, Pasquale Patrizio

Future Directions for Research and Practice

Advocacy Issues *Moderator: Doug Ulman, Lance Armstrong Foundation*

Fertile Hope: The role of a patient advocacy organization *Lindsay Nohr*

Research promoting better patient education on reproductive health

after cancer *Andrea Canada*

Ensuring access to education and services on infertility for the underserved

Rosell Jeffries

Research Funding in Cancer and Parenthood at NCI *Diana Jeffery*

Research funding in cancer and parenthood at NICHD *Phyllis Leppert*

Conference Chair: Leslie R. Schover, PhD; **Co-Chair:** Marvin Meistrich, PhD

Organizing Committee: Ashok Agarwal, MD, Andrea Canada, PhD, Kutluk Oktay, MD,

Lindsay Nohr

- du fait sexuel au concept des droits
- géosexualité

Santé Sexuelle et Société

- évolution des mœurs – indicateur social de la santé sexuelle
- anthropologie et sexualité
- santé sexuelle médiatisée, danger ou progrès ?

Symposium Laboratoire

après-midi

Jeunesse et Sexualité

- nouvelles émergences de la sexualité chez les jeunes
- jeunes et intimité érotique
- de "l'éducation sentimentale" au "zizi sexuel"
- éducation sexuelle : un modèle intégratif

Ateliers

samedi 20 mars 2004

matin

Sciences et Sentiments

- neurobiologie des comportements sexuels
- molécules du désir et du plaisir
- chimie du désir et alchimie de l'imaginaire
- les représentations du sexuel
- apprentissages érotiques
- sentiment amoureux et santé sexuelle

Assemblée Générale de l'AIHUS

après-midi

Santé Sexuelle et Sexologie

- approche intégrative des dysfonctions sexuelles
- nouveaux modèles en thérapie sexuelle
- la notion de cadre en sexothérapie
- les thérapeutes
- pour une évaluation des sexothérapies

Symposium Laboratoire

Soirée de Gala

dimanche 21 mars 2004

matin

"Sex Provocs"

- la fidélité est-elle dangereuse pour la santé ?
- la prostitution, utilité sociale et individuelle ?
- la pornographie a-t-elle une fonction dans la santé sexuelle ?

"Le Développement Durable"

- le bonheur sexuel
- éthique de la santé sexuelle
- futur de la sexualité : au delà de la sexologie
